

# LIGHT AS AIR

ARDELL®

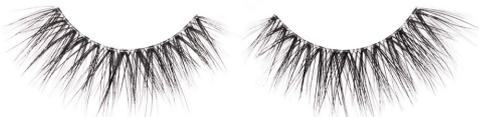

Ardell's Light As Air lashes are 50% lighter than normal lashes, whilst still having the multi-dimensional lash volume.

*Creating the softest and most lightweight lashes on the market!*

Light As Air lashes are perfect for your clients, who love the glam and volume but prefer a weightless feel when wearing them for a long period of time. With three beautiful styles to choose from, your clients can achieve the glamorous look they desire.

**521-** Light volume and short to create a subtle and natural look.

**522-** Light volume and longer in length whilst having a lift effect.

**523-** Light with a more volumized effect and longer in length than 521.
